Managing Director

Message from Managing Director

Thank you so much for your interest in One Pharma Ltd. We owe our blessings to the Almighty Allah for his help and guidance in allowing us to establish this company. We created One Pharma Ltd. with the vision of becoming a trendsetter in the health sector in Bangladesh and globally. To that effect, we also count our blessings in being able to follow in the footsteps of pioneering companies that have established the pharmaceutical sector in Bangladesh, and to build on their work.

Our responsibility is huge: To provide affordable, high-quality healthcare solutions to low-income people. We know how hard but rewarding it is to work with such customers, based on almost two decade's work with smallholder farmers through our sister concern, National AgriCare Group. We infuse quality in everything we do, including meeting all cGMP, WHO and other relevant international standards.

We seek to work with all stakeholders: Development organizations, hospitals, doctors, healthcare professionals and policy makers in making this vision a reality. Please persue our site and do not hesitate to contact me with any questions and feedback.

Sincerely,

KSM. Mostafizur Rahman
Managing Director

Who we are...

One Pharma Ltd. is a concern of one of the reputed conglomerates of Bangladesh, National AgriCare Group which is functioning with-

- National AgriCare Import & Export Ltd.
- China Gardencity Developers Ltd.
- National AgriCare Hybrid Seeds Ltd.
- National AgriCare & Youngsun Mfg. Cor. Ltd.
- National AgriCare Solar Power Ltd.
- National AgriCare Accessories Ltd.
- Sayed Momena Montaj Foundation

National AgriCare Group (NACG) is a reliable company in Bangladesh. From the inception of NACG, it is always rigid for quality products, strong competitive price, first-class service and personalized procedural support platform. Through the best corporate practice NACG now become a unparalleled agricultural solution provider of Bangladesh with a perception of **Banglar Krishoker** Company.

From our previous success history, we have now an audacity to ensure quality medicine to the ailing humanity. The search for optimum human health is the main driver at One Pharma Ltd. In its effort to foster well-being in the communities it serves, One Pharma Ltd. enhances the quality of life through research and development, manufacturing and marketing of pharmaceutical, biotechnology and health care products.

Our Product at a glance

Cluster Breaking Approach

Vision

Our vision is to build One Pharma Ltd. into a world class and leading specialty pharmaceutical company for both human and veterinary drugs. We want to continually grow profits and both share it with partners and reinvest in the business in order to maintain high quality standards and products.

Mission

Our aim is to provide patients worldwide with better access to high quality, cost-effective medicines in key areas through both existing and future products. We will distinguish ourselves through fast, simple and effective services to customers.

Values

- Don't compromise on quality
- Put the needs of the rural population front and center - both humans and animals
- Select, develop and retain talented people and partners
- Keep operations fast and simple
- Strive to be a leader on costs in every important segment
- Treat everyone fairly
- Respect and follow local laws and regulations
- Create a culture of ego-free and humble leadership and positive feelings among colleagues

"Coming together is a beginning
Keeping together is progress
Working together is success."

Quality Policy

We, at One Pharma Ltd. are always committed to consistently producing and market best of class pharmaceutical products having high quality standards for a healthier world through 6M (Man, Machine, Materials, Method, Money & Marketing) Philosophy Method.

We assure to adhere to the cGMP practices, different regulatory requirements and international guidelines during our quest to manufacture quality products while every effort to provide our customer with peace of mind.

These are achieved through our commitment in:

- Adopting, maintaining and improving quality management system
- Accepting latest technologies
- Meticulous monitoring of our activities as per the international guidelines by appropriate system, continuous process development backed by extensive research activities
- Work as a team with employees, suppliers and subcontractors to assure most efficient and effective execution of end result desired by our customers
- Focusing on talent development and continual improvement
- Promoting health, safety and environmental awareness by regular training and other programs to fulfill social obligations and make One Pharma Ltd. a great place to work

Sincerely,

KSM. Mostafizur Rahman
